# WELCOME MESSAGE

Welcome, everyone, to this exciting journey of learning forex trading. I am thrilled to have you all here and commend you for taking the first step towards becoming a successful forex trader. Over the next few weeks, we will delve into the world of forex trading, and I assure you that it will be an enlightening and engaging experience.

Forex trading is an exciting and dynamic field that requires a strong foundation of knowledge, skills, and discipline. During this course, we will cover all the essentials of forex trading, from understanding market structure and analyzing price movements to managing risk and executing trades.

To make the most out of this course, I urge you to come with an open mind and a willingness to learn. We will explore a range of concepts and strategies that may be new to some of you, but with an open mind, you will be able to grasp them effectively.

I encourage you to actively participate in the course, ask questions, and engage with your peers. Our experienced instructors and mentors are here to support you and help you achieve your trading goals.

By the end of this course, you will have a solid foundation of knowledge and practical skills that will prepare you for the exciting world of forex trading. You will also have access to ongoing support and resources to continue your trading journey.

So, get ready to learn, grow, and thrive in the world of forex trading. Once again, welcome, and let's get started!

# CHECKLIST

To make the most of FL2, we recommend taking the following steps to prepare for the DLP (education) & live training sessions:

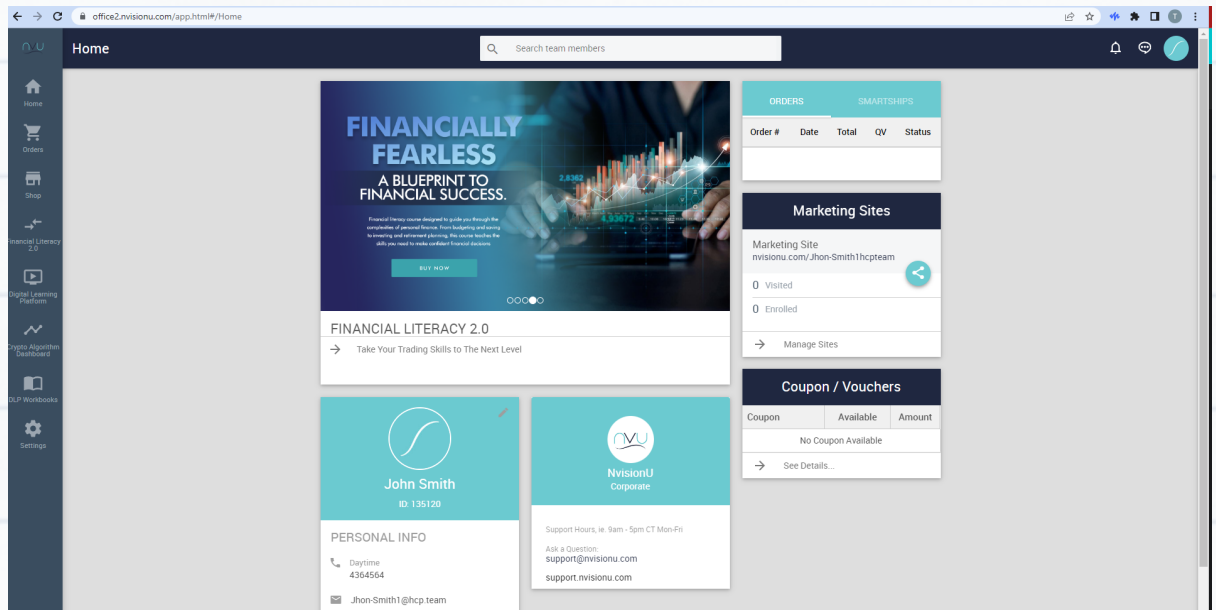

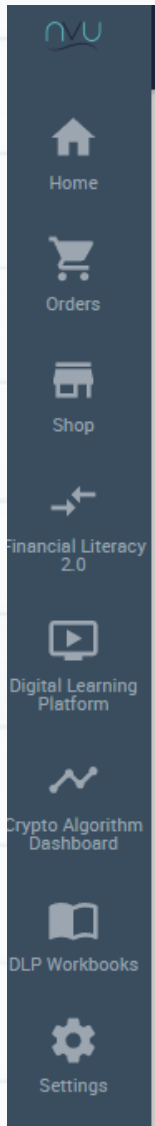

- Familiarize yourself with the dashboard found at [office2.nvisionu.com](https://office2.nvisionu.com)
  - Review the course materials, and resources that are provided before the sessions. Take some time to become familiar with the content to be covered in the DLP (digital learning platform and how to access the live training sessions).
  - Check your technology: Ensure that you have a stable internet connection and a device that can support the required software and tools for the course. Test everything before the live sessions start to avoid any last-minute technical issues.
  - Prepare your workspace: Set up a dedicated workspace that is quiet and free from distractions. This will allow you to fully focus when in the DLP and access the live training sessions.
- When attending the live sessions be prepared to take notes as well as participate if asked questions.

In addition to the above checklist, we have a dedicated customer support team to help you with any questions or issues you may have during the course. If you encounter any difficulties with the course material or the technology, please reach out to us via email or phone, and we'll be happy to assist you.

# DASHBOARD

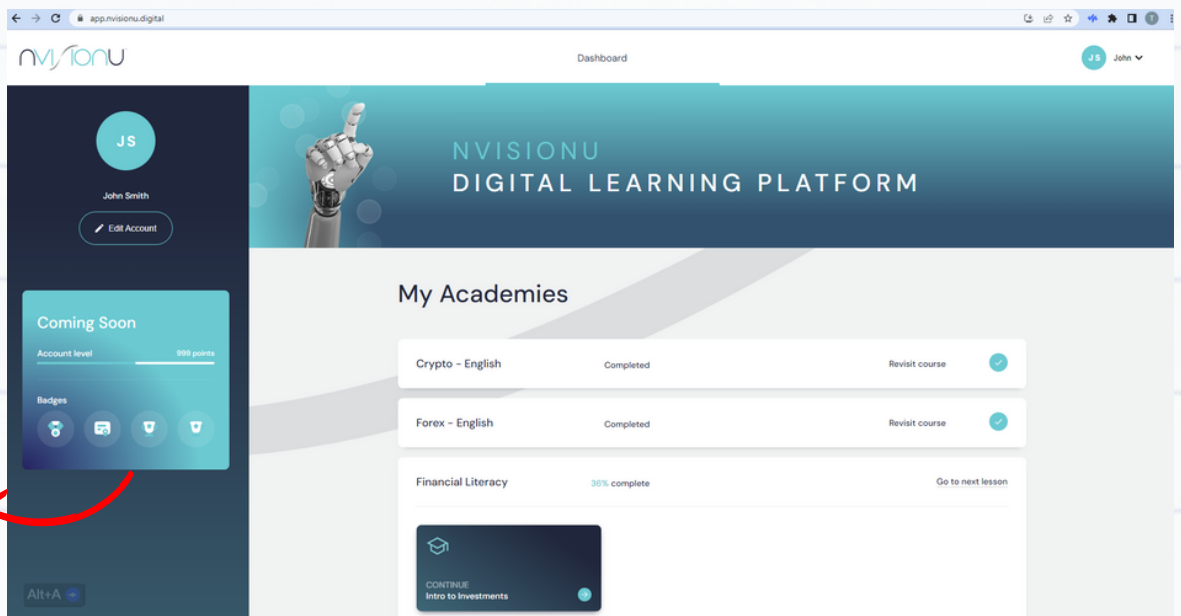

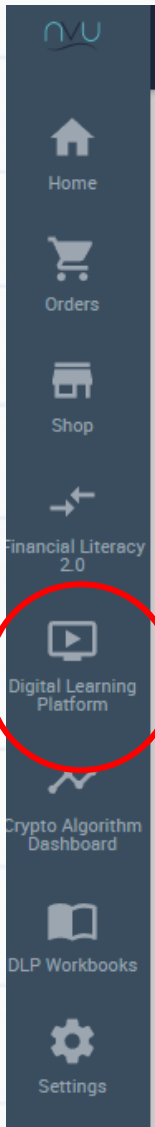

In addition to the above checklist, we have a dedicated customer support team to help you with any questions or issues you may have during the course. If you encounter any difficulties with the course material or the technology, please reach out to us via email or phone, and we'll be happy to assist you.
