GENERAL INFORMATION

Weeks run from Tuesday 12:01am PST to Monday 11:59pm PST

Weekly commissions are paid 3 Friday's after the qualification period is completed.

Monthly commissions are paid at the end of the week in the middle of the following month (date varies due to weekends).

To define rank, the system checks current month rank and last month's rank and takes the higher of the two months (two month lookback).

Visionary Builder kit cost is \$19.99 per month to be active.

TREE USED

Company uses three trees, an enroller tree, a binary tree (placement), and a three leg unilevel tree (placement).

Enrollment Tree: The enrollment tree is those who personally enrolled a Visionary Builder or customer. The Fast Start Bonus and the Matching Bonus pay on the enrollment tree. In the enrollment tree, customers are placed on level one.

The Binary Tree: The binary tree places Visionary Builders and customers in two legs. The Binary Bonus pays on the binary tree (2 downline placed).

Unilevel Tree: The unilevel tree allows placement of customers and Visionary Builders. The unilevel looks at the highest leg, second highest leg and then all the rest of the legs into leg three. The unilevel pays on the unilevel tree which allows placement.

DEFINITION OF TERMS

Term	Acronym	Definition
Active		Active Visionary Builder is \$19.99 Visionary Builder Kit per month
Binary		<p>The binary tree is based on a right leg and left leg. You may place Visionary Builders that you enroll in any open node in your tree. Other Visionary Builders may place Visionary Builders (spillover) into your binary tree. Your downline will also enroll Visionary Builders in your binary tree. In the binary, you earn based on the accumulation of 300 one side and 150 on the other commissionable volume matched volume.</p>
Commissionable Volume	CV	Value used to calculate commissions.

Customer	C	A customer buys a product at the same price as a Visionary Builder. A person is considered a customer until they buy the Visionary Builder Kit. A customer can earn fast start points if they have purchased a virtual or product package. A customer can use their points to purchase subscriptions or products.
Dynamic Compression		A method of compression that traverses up the enroller tree skipping individuals who are not eligible to earn the next available level of a bonus payout until all available bonus levels are paid or the top of the tree is reached.
Enroller Tree		<p>The enroller tree consists of Visionary Builders and customers that you have personally sponsored.</p> 
Paid Rank		The rank that a member qualifies for during the current monthly period or last month period whichever is higher.
Personal Retail Sales Volume	PSRV	A specified number (2, 3, or 4) customer packs with 100QV+ each with any combination of personal purchase or personal retail sales volume for the remaining 100QV. This changes by rank.
Qualifying Volume	QV	Each pack or product has qualifying volume used to qualify for ranks.
Rollover		Binary payout is paid on 300CV on one leg and 150CV on the other leg (left or right). Once matched volume is paid on, the paid on volume flushes on both legs. Any extra volume that is not paid on in the binary rolls over to the next week. You must have for personal 100 CV in the last month to have volume roll over each week. You must have 1 personally sponsored right and left at 100 QV each month or volume reduces by 50% in month 1 and then goes to 0 at month 2.
Spillover		Visionary Builders placed in your binary tree or unilevel tree by your upline are considered spillover.

Unilevel Tree

The tree structure is based on each member's personally enrolled sponsor.
